## OBJECTIVE

---

Recent 2025 Computer Science Engineering graduate with strong foundations in Java, Spring Boot, ReactJS, and modern web technologies. Passionate about building user-focused applications and contributing effectively to full-stack development projects. Known for strong problem-solving ability, adaptability, and collaborative teamwork.

## SKILLS

---

<b>Programming</b>	Java, JavaScript
<b>Front-End</b>	ReactJS, HTML5, CSS3, Bootstrap
<b>Back-End</b>	Spring Boot, JDBC, Servlets
<b>Databases</b>	MySQL, MongoDB, Firebase
<b>Tools</b>	Git, VS Code

## PROJECTS

---

<b>E-Commerce Website</b>	<i>ReactJS, Spring Boot, MongoDB, Bootstrap</i>
---------------------------	---

- Built a full-stack e-commerce application with product browsing, cart, and order placement.
- Implemented database operations using MongoDB/Firebase and designed a fully responsive UI.

<b>Portfolio Website</b>	<i>ReactJS, Firebase</i>
--------------------------	--------------------------

- Developed a modern personal portfolio using ReactJS with clean component-based structure.
- Deployed using Firebase for fast, secure hosting and smooth user accessibility.
- Designed a responsive UI showcasing skills, certifications, and projects effectively.

## EDUCATION

---

### B.E. Computer Science and Engineering

Lord Jegannath College of Engineering and Technology	2021–2025
CGPA: 8.3/10	

### HSC - DVD Matric Hr Sec School

Score: 81%	2020–2021
------------	-----------

### SSLC - Ponjesly Public Matric Hr Sec School

Score: 80%	2018–2019
------------	-----------

## CERTIFICATIONS

---

- Java Full Stack Developer - Networkz Systems
- Infosys Springboard Internship - Infosys
- AI For India 2.0 - GUVI
- Data Science with AI - *Ongoing*

## ADDITIONAL INFORMATION

---

- Strong teamwork and communication skills.
- Comfortable with databases and CRUD operations.
- Fast learner with deep interest in full-stack development and modern web technologies.
